

"A penny saved is a penny earned."  
- Benjamin Franklin

Every penny makes a difference and they add up very quickly. That's why *Pennies At A Time* is the perfect way for you to generate additional revenues. With NO cost or risk to your organization, *Pennies At A Time* offers a supplementary, innovative way for you to fundraise.

sales generated are completely anonymous and are limited to the knowledge of the retailer and the shopper.

Checkout and order processing are handled by the respective stores – just as they would be if your associates went directly to the retailer's site. No billing, credit card, or payment information is ever seen by *Pennies At A Time*.

**THE CONCEPT:**

With *Pennies At A Time*, online retailers pay a commission every time you or one of your supporters start their on-line purchases through your site.

**HOW IT WORKS:**

*Pennies At A Time* creates a webpage matching the look & feel of your organization's current website containing links to over 700 online stores. When someone makes a purchase through your *Pennies At A Time* webpage your organization receives a commission.

Rather than going directly to the retailer's website, your associates will navigate through your *Pennies At A Time* webpage. Upon clicking on their retailer of choice, their shopping experience continues as normal while raising money for your organization.

The *Pennies At A Time* webpage will appear to be hosted within your domain making your visitors feel comfortable and secure.

**HOW MUCH WILL WE EARN?**

That depends on you. The more purchases you make, the more money your organization generates. Commissions vary from store to store. Some stores pay out a percentage of the sale, while others pay a flat fee. You can even generate revenues simply by having your members print out eCoupons for their favorite grocery products.

Assuming the average commission is 3% and the average supporter spends \$500 online annually, you can earn:

# of supporters	\$ Online / Year	Avg. Rate	Earnings/Year
100	\$500	3%	\$1,500
1,000	\$500	3%	\$15,000
10,000	\$500	3%	\$150,000

It's easy to see that things add up pretty quickly... pennies at a time.

**HOW MUCH DOES IT COST?**

Not even a precious penny. Whether you earn \$10 or \$10,000, there is no cost to you or your users. There is no hardware to buy, no infrastructure to maintain, and no commitments of any sort. There is zero risk... only positive returns.

**PRIVACY, SECURITY & COMFORT:**

Your associates have nothing to worry about. *Pennies At A Time* does not collect any personal information, know who made the purchase, or the items purchased. All
